ABOUT US

Cafetto® produces cleaning and sanitation products for espresso, coffee brewing and beverage dispensing equipment. Cafetto® is the industry leader in effective eco-friendly solutions, offering cleaning products to improve equipment performance and simplify cleaning processes. Through its extensive product portfolio and global network, Cafetto® provides cleaning products to both the commercial and domestic markets.

BENEFITS OF CLEANING YOUR EQUIPMENT

- Improve machine and equipment performance
- Increase the life span of the machine
- Increase machine reliability
- Reduce service downtime
- Improve flavour of coffee

OUR PROMISE TO YOU

We stand by the quality of our products. The Cafetto® range has been stringently tested to bring you the most effective products to clean and sanitise your equipment.

Our products help make your business cleaner, safer and healthier – protecting people and your business.

SPECIALISED CERTIFICATIONS

ACO REGISTERED

All Cafetto® products marked with the Australian Certified Organic (ACO) logo have been registered under Certified Allowed Inputs for use in organic systems.

NSF

NSF (National Sanitation Foundation)certification services assure that an independent organisation has reviewed a product or system to comply with specific standards for safety, quality, sustainability or performance. Cafetto® has obtained compliance with NSF A3 (Acid Cleaners), A1 (Compounds for use as a general cleaner) White Book Non-food Compounds and International Protocol P152 & P156. The ingredients and formulation of the products that are NSF certified are safe, leave no harmful residues and do not cause corrosion within the coffee machine.

SICHMA

SICHMA is a not-for-profit organisation that aims to promote halal food and the institution of halal. It is recognised and endorsed by several religious and governmental organisations across Malaysia, Indonesia, Singapore, Saudi Arabia, and Thailand, alongside bodies such as the Emirates Authority for Standardisation & Metrology and the Gulf Corporation Councils Accreditation Centre. Cafetto® has obtained compliance with the SICHMA Halal certification guidelines and GSO 2055.1:2015 for a range of its products. These products have the SICHMA logo displayed.

KOSHER AUSTRALIA

Kosher Australia is a not-for-profit organisation and Australia's most reliable kosher certification agency. Kosher Certification for Cafetto® products with Halachic (Jewish Law) requirements as determined by Kosher Australia. Certification of Cafetto products through Kosher Australia is indicative of the rigorous auditing of a trusted agency that is a member of the Association of Kashrus Organizations (AKO), a trusted international body accepted in significant kosher markets.

QIMA

QIMA is a global organisation spanning global reach of 100+ countries dedicated to controlling the quality of products imported within the Saudi markets. Cafetto demonstrates via annual audits from QIMA appropriate quality systems in place that do not conflict with the Saudi market through compromised foreign manufactured products.

QUALITY THAT'S INDEPENDENTLY CERTIFIED

At Cafetto® we recognise the need to protect the health and safety of anyone who comes into contact with our products. That is why we have implemented and maintain a consistent, effective, quality system that meets or exceeds global standards, allowing you to have confidence in hygiene and safety with the use of Cafetto® products. We do all of this whilst remaining environmentally conscious across all aspects of our business.

Certified System
Environment
ISO 14001
SAI GLOBAL

ISO 14001 ENVIRONMENTAL MANAGEMENT SYSTEM

Cafetto® is proudly certified with the ISO 14001 Environmental Management System. This environmental management system is made up of a set of rules and regulations that define how our company interacts with the environment across all aspects of the business. As care for the environment is vital, we follow specific guidelines and processes that focus on:

- Sustainability
- Reducing Pollution
- Minimising our Environmental Footprint

This includes resourceful management processes such as packaging and chemical waste recycling, reducing packaging materials by producing highly concentrated products, eliminating product spills entering the storm-water system with bunding of entire factory site, and using external waste management services. All elements within the Environmental Management System allow Cafetto® to confidently maintain the highest standard of environmentally conscious processes throughout the business.

Certified System
Food Safety
ISO 22000
SAI GLOBAL

ISO 22000 FOOD SAFETY MANAGEMENT SYSTEM

ISO 22000 ensures the safety of the global food supply chain to the highest standard. It is an internationally recognised certification standard based on the most advanced technological, scientific, and managerial expertise. This certification has created a level standard across food safety management systems worldwide. Cafetto® customers can be assured that our products adhere to this high standard.

Certified System
Food Safety
CODEX
HACCP
SAI GLOBAL

HACCP

Cafetto® is compliant with HACCP requirements for the production of cleaning chemicals. HACCP is a food safety and risk assessment plan that stands for Hazard Analysis and Critical Control Points and outlines seven key principles in food safety:

- Hazard Analysis
- Critical Control Points
- Critical Limits
- Critical Control Monitoring
- Corrective Action
- Procedures
- Record Keeping

HACCP can be applied to all processes throughout each and every stage of the food supply chain. This includes production, preparation, packaging and distribution.

Certified System
Quality
ISO 9001
SAI GLOBAL

ISO 9001:2015

ISO 9001 is an internationally recognised standard that sets out the requirements for a quality management system. It helps businesses and organisations to be more efficient and improve customer satisfaction. Our organisation complies with the requirements of ISO9001:2015 for the design, development, manufacture, sales and distribution of cleaning and sanitisation products for the coffee brewing and beverage dispensing equipment.

CAFETTO ORGANIC RANGE

Our organic range contains only ingredients that are sustainably sourced and free from Genetically Modified Organisms and phosphates. All products are biodegradable and certified for use in organic systems, which means that if you're using organic coffee beans and milk, you're fulfilling an end-to-end organic experience for your customers.

Our organic range of products contains ingredients that are either plant derived or naturally occurring:

TARTARIC ACID

Sourced from plant material, in particular from grapes during the wine-making process, but also found in other fruit including apricots, apples and bananas. It is a natural souring agent in foods and is commonly used as a leavening agent in bread-making, which along with sodium bicarbonate, causes the bread to rise. It is used in Cafetto® products to assist dissolution by effervescence, whilst also contributing to cleaning by removing hard water elements.

CITRIC ACID

Derived from citrus fruits, such as orange, lemon, lime and grapefruit, it is produced via biological fermentation. In ice-cream it is used as an emulsifier to keep the dairy fats suspended. It is used in Cafetto® products to assist dissolution by effervescence, whilst also contributing to cleaning by removing hard water ions.

SODIUM CARBONATE

Produced by the purification of 'trona', a naturally occurring mineral from the Green River Basin in Wyoming, USA. It can also be derived from kelp or seaweed. This ingredient is found in toothpaste and is also used in bakery products. It is used in our products as a very effective cleaning agent.

SODIUM CITRATE

Derived from maize sugar via fermentation, it is found in many drinks and is used in the production of some cheeses. It is used to optimise the pH during the cleaning process.

SODIUM PERCARBONATE

This is an oxygen releasing agent that is widely used in toothpaste and denture cleaning tablets as well as other cleaning preparations. It is a highly effective cleaning and bleaching agent.

POTASSIUM CARBONATE

This is an alkaline agent made from naturally occurring minerals. It is often used in the production of wine and as a baking agent. It is one of the ingredients that provides our organic range with its exceptional cleaning performance.

Our organic range is certified by two independent regulatory bodies – NSF and/or ACO, and has undergone stringent testing to ensure each product in the range effectively cleans coffee equipment.

WHY USE ORGANIC CLEANING PRODUCTS?

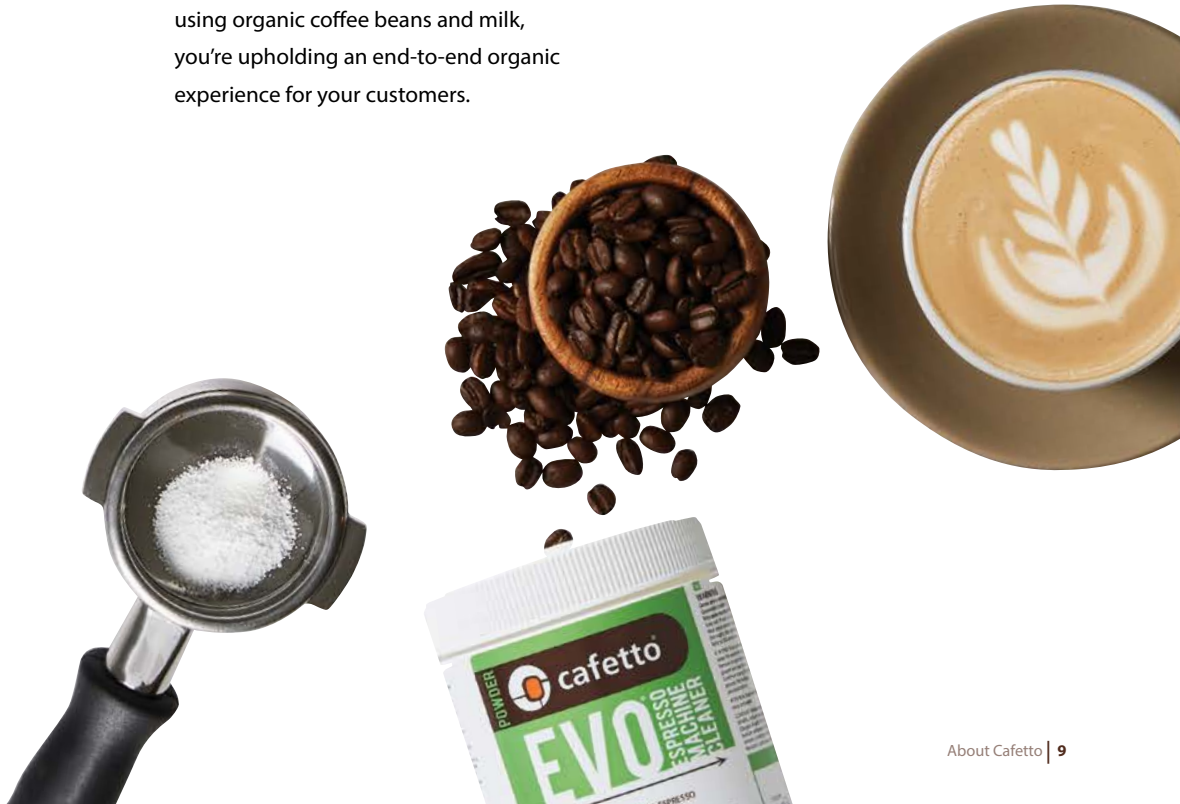

Do you use organic coffee?
Are you concerned about using GMO products and phosphates?

The Cafetto® Organic Range is the best choice for customers who are looking for an alternative to traditional espresso machine cleaners.

Using a cleaning product that is certified for organic use, means that if you're using organic coffee beans and milk, you're upholding an end-to-end organic experience for your customers.

OUR ORGANIC PRODUCTS ARE FREE FROM

- ✗ Genetically Modified Organisms
- ✗ Phosphates
- ✗ Corrosive chemicals
- ✗ Chlorine and quaternary sanitisers

TRADITIONAL ESPRESSO MACHINE CLEANERS

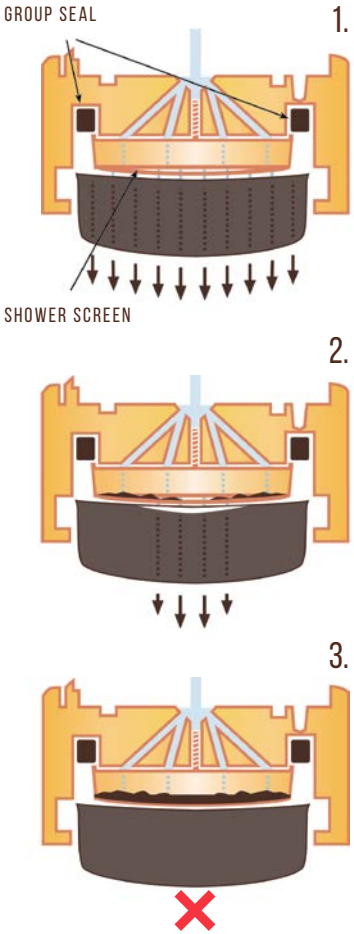

Cafetto® has a comprehensive range of high performance cleaners that are formulated to clean espresso machine group heads, valves and lines.

Cafetto's espresso machine cleaning powders remove coffee oils, grounds and stains, improving the taste and aroma after the machine is cleaned.

Powders can also be used diluted to soak group handles, filters, and remove stains, keeping your components in excellent condition.

ESPRESSO MACHINE POWDERS

WHY CLEAN?

Daily use of an espresso machine cleaner on commercial machines will reduce the frequency of machine services, lengthen the lifespan of your machine and improve the quality of coffee extraction.

1. Clean shower screen: means good, even extraction:
   - Good crema
   - Excellent taste
2. Partially blocked shower screen: means over extraction in a concentrated area:
   - Poor crema
   - Bitter taste
3. Fully blocked shower screen:
   - Service call required

ESPRESSO CLEAN®

Effectively removes coffee oils, grounds and stains.

RECOMMENDED FOR:

Traditional espresso machines.

AVAILABLE IN:

12 x 5g Sachets per box (carton code E10802 - 12 boxes)

500g Jars (carton code E25121 - 12 jars)

1kg Jars (carton code E11839 - 12 jars)

CERTIFICATIONS:

NSF Protocol P152 Health Effects and Corrosivity of Commercial Espresso Machine Chemical Cleaners

EVO®

Certified as an Allowed Input for Organic Systems. All EVO® ingredients are readily biodegradable meeting international standards.

RECOMMENDED FOR:

Traditional espresso machines.

AVAILABLE IN:

12 x 5g Sachets per box (carton code E10833 - 12 boxes)

500g Jars (carton code E29160 - 12 jars)

1kg jars (carton code E29120 - 12 jars)

CERTIFICATIONS:

NSF Protocol P152 Health Effects and Corrosivity of Commercial Espresso Machine Chemical Cleaners

Certified Allowed Input

TRADITIONAL ESPRESSO MACHINE CLEANING TABLETS

ESPRESSO CLEAN® TABLETS

Effectively removes coffee oils, grounds and stains.

RECOMMENDED FOR:

Traditional espresso machines.

AVAILABLE IN:

150 tablet Jars (carton code E27893 - 12 jars)

TEVO® MAXI TABLETS

Certified as an Allowed Input for Organic Systems. All TEVO® Maxi ingredients are readily biodegradable meeting international standards.

RECOMMENDED FOR:

Traditional espresso machines.

AVAILABLE IN:

150 tablet Jars (carton code E27852 - 12 jars)

CERTIFICATIONS:

NSF Protocol P152 Health Effects and Corrosivity of Commercial Espresso Machine Chemical Cleaners

Certified Allowed Input ACO CERT. NO. 10200

WHICH ONE DO I NEED?

Different brands and styles of super automatic espresso machine are unique and require a cleaning tablet with a specific dissolution time, size and shape.

FULLY AUTOMATIC CLEANING TABLETS

We understand that each machine is unique and requires a specific tablet with specific parameters including dissolution time, size and shape.

Cafetto's tablets are formulated and manufactured to the highest standards ensuring that each tablet remains completely intact from when it is produced, to when it used.

FULLY AUTOMATIC TABLETS

TEVO® MINI TABLETS

Certified as an Allowed Input for Organic Systems. All TEVO® Mini ingredients are readily biodegradable meeting international standards.

RECOMMENDED FOR*:

Miele | Rancillio | Saeco | Schaerer | SCS | Solis | Stentorfield | VBM | Ascaso | Rex Royal | Nuova Simonelli Prontobar

AVAILABLE IN:

8 tablet Blister Packs (carton code E11927 - 40 blister packs)

100 tablet Jars (carton code E10335 - 12 jars)

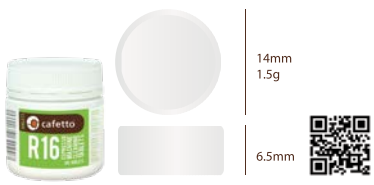

CERTIFICATIONS:

NSF Protocol P152 Health Effects and Corrosivity of Commercial Espresso Machine Chemical Cleaners

Certified Allowed Input ACO CERT. NO. 10200

KOSHER PAREVE

*These are the registered trademarks of their respective owners and are not associated.

R16 TABLETS

Certified as an Allowed Input for Organic Systems. All R16 ingredients are readily biodegradable meeting international standards.

RECOMMENDED FOR*:

WMF | Schearer | VBM | Ascaso | Dalla Corte

AVAILABLE IN:

100 tablet Jars (carton code E11041 - 12 jars)

CERTIFICATIONS:

NSF Protocol P152 Health Effects and Corrosivity of Commercial Espresso Machine Chemical Cleaners

Certified Allowed Input ACO CERT. NO. 10200

*These are the registered trademarks of their respective owners and are not associated.

B30 TABLETS

B30 tablets safely and completely remove coffee oils and residues of selected fully automatic espresso machines.

RECOMMENDED FOR*:

Carimali | Cimbali | Faema

AVAILABLE IN:

150 tablet Jars (carton code E29018 - 4 jars)

*These are the registered trademarks of their respective owners and are not associated.

E29 TABLETS

E29 tablets safely and completely remove coffee oils and residues of selected fully automatic espresso machines.

RECOMMENDED FOR*:

Eversys

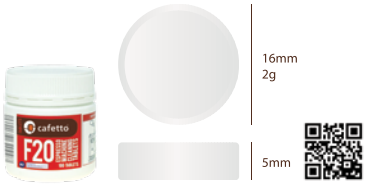

AVAILABLE IN:

62 tablet Jars (carton code E23217 - 12 jars)

CERTIFICATIONS:

*These are the registered trademarks of their respective owners and are not associated.

FULLY AUTOMATIC CLEANING TABLETS

F20 TABLETS

F20 tablets safely and completely remove coffee oils and residues of selected fully automatic espresso machines.

RECOMMENDED FOR*:

Acorto | Concordia | Kalerm

AVAILABLE IN:

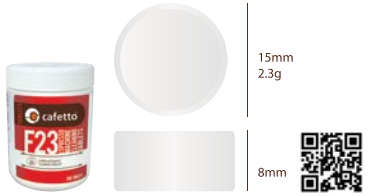

100 tablet Jars (carton code E29782 - 12 jars)

200 tablet Jars [N/A Europe] (carton code E29777 - 4 jars)

CERTIFICATIONS:

NSF Protocol P152 Health Effects and Corrosivity of Commercial Espresso Machine Chemical Cleaners

*These are the registered trademarks of their respective owners and are not associated.

F23 TABLETS

F23 tablets safely and completely remove coffee oils and residues of selected fully automatic espresso machines.

RECOMMENDED FOR*:

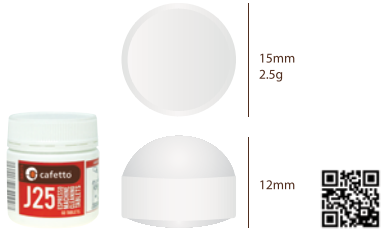

Franke | Melitta

AVAILABLE IN:

100 tablet Jars (carton code E21575 - 12 jars)

CERTIFICATIONS:

*These are the registered trademarks of their respective owners and are not associated.

J25 TABLETS

J25 tablets safely and completely remove coffee oils and residues of selected fully automatic espresso machines.

RECOMMENDED FOR*:

Jura | Krups

AVAILABLE IN:

60 tablet Jars (carton code E11053 - 12 jars)

N10 TABLETS

N10 tablets safely and completely remove coffee oils and residues of selected fully automatic espresso machines.

RECOMMENDED FOR*:

Nuova Simonelli Microbar | WMF | Evoca Karisma | Evoca Kalea

M35 TABLETS

This 2-in-1 tablet safely and completely removes coffee oils and residues of selected fully automatic espresso machines while removing milk residue and milk stone.

RECOMMENDED FOR*:

Cafina/Melitta

AVAILABLE IN:

150 tablet Jars (carton code E29840 - 4 jars)

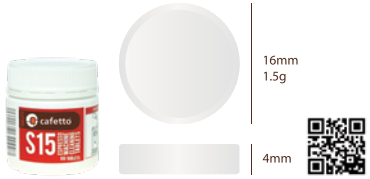

AVAILABLE IN:

120 tablet Jars (carton code E11046 - 12 jars)

CERTIFICATIONS:

*These are the registered trademarks of their respective owners and are not associated.

FULLY AUTOMATIC CLEANING TABLETS

S15 TABLETS

S15 tablets safely and completely remove coffee oils and residues of selected fully automatic espresso machines.

RECOMMENDED FOR*:

Miele | Rancillio | Saeco | Schaerer | SCS | Solis | Stentorfield | VBM | Ascaso | Rex Royal | Nuova Simonelli Prontobar

AVAILABLE IN:

8 tablet Blister Packs (carton code E25570 - 15 blister packs)

100 tablet Jars (carton code E29736 - 12 jars)

CERTIFICATIONS:

*These are the registered trademarks of their respective owners and are not associated.

T32 TABLETS

T32 tablets safely and completely remove coffee oils and residues of selected fully automatic espresso machines.

RECOMMENDED FOR*:

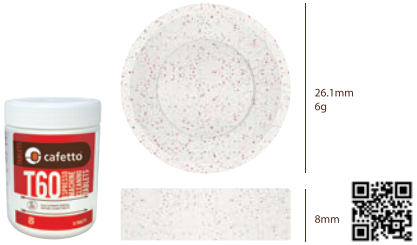

Thermoplan | Melitta | La Cimbali S15, S20, S30 and S60

AVAILABLE IN:

90 tablet Jars (carton code E28835 - 12 jars)

CERTIFICATIONS:

*These are the registered trademarks of their respective owners and are not associated.

T60 TABLETS

T60 tablets safely and completely remove coffee oils and residues of selected fully automatic espresso machines.

RECOMMENDED FOR:

Thermoplan

AVAILABLE IN:

31 tablet Jars (carton code E23226 - 12 jars)

CERTIFICATIONS:

*These are the registered trademarks of their respective owners and are not associated.

MILK CLEANERS

MILK LINES, FROTHERS & EQUIPMENT

The MFC® range has been developed to sanitise, remove milk residue and hard water scale from milk lines and frothers.

Whether you're dealing with hard water or need a cleaner that can break down build up from milk-based products, Cafetto® has a product suited to your requirements with both alkaline and acidic products on offer.

Rinse or flush the milk line before and after using cleaning products to ensure best performance.

LIQUID MILK CLEANERS

MILK CLEANING WITH CAFETTO

How confident are you that you're completely across cleaning all parts of your coffee machine that come into direct contact with milk? If you had to think about it, you're probably not prioritising it as much as you should be. Here are some quick and (not so) fun facts to be across.

WITHOUT UTILISING MILK CLEANERS

- Sour milk
- Milk stone
- Scale
- Dried milk deposits
- Odour

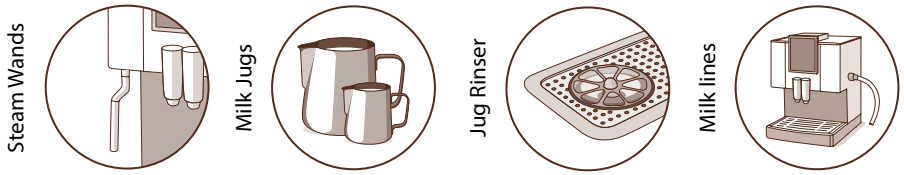

Bacteria such as listeria, salmonella & e-coli. Safe to say no one wants to encounter these problems? We thought so too. That's why we offer a range of Milk Cleaners to suit the requirements of most machines and give you coffee that actually tastes like coffee - ground breaking.

WITH USING CAFETTO MILK CLEANERS

- Milk lines free from milk stone
- Reduced risk of harmful bacteria growth
- Fresh tasting milk-based beverages
- Control of hard water scale
- Hygienic equipment
- Customer health and safety

Oh, and you can also add 'happy customers and less technician call outs' on that list. Repeat after us: Milk components need love too. That's why we've developed a range that does exactly that with over 10 products to give you the clean needed from top to bottom.

RECOMMENDED USE FOR:

MFC® BLUE

A high performance alkaline milk line cleaner for machines used at a high frequency. We recommend using an acidic milk frother cleaner/descaler through the milk lines periodically to remove any scale build up in the lines.

RECOMMENDED FOR:

Range of fully automatic coffee machines

AVAILABLE IN:

1L Bottles with dispensing chamber
(carton code E14005 - 6 bottles)

CERTIFICATIONS:

NSF Nonfood Compounds Program Listed (A1) (151187)

MFC® GREEN

An acidic, organic descaler. MFC® Green contains readily biodegradable detergents & is derived from natural acids. It is recommended that MFC® Green is used more frequently than the other MFC® cleaners due to its milder properties.

RECOMMENDED FOR:

Range of fully automatic coffee machines

AVAILABLE IN:

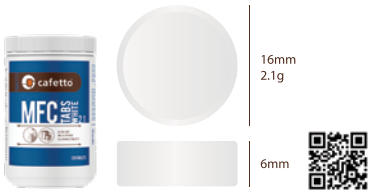

1L Bottles with dispensing chamber
(carton code E27885 - 6 bottles)

CERTIFICATIONS:

NSF Nonfood Compounds Program Listed (A3) (147359)

Certified Allowed Input ACO CERT NO. 10200

MILK CLEANING TABLETS

MFC® TABS WHITE 2.1

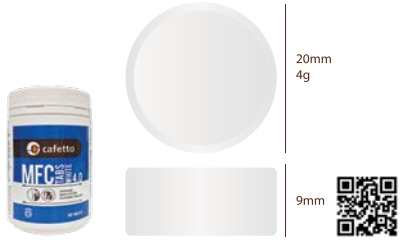

Alkaline tablets designed to clean and control milk stone in automatic machine milk lines and frothers.

RECOMMENDED FOR:

Range of fully automatic coffee machines

AVAILABLE IN:

120 tablet Jars (carton code E10504 - 12 jars)

MFC® TABS WHITE 4.0

Alkaline tablets designed to clean and control milk stone in automatic machine milk lines and frothers.

RECOMMENDED FOR:

Range of fully automatic coffee machines

AVAILABLE IN:

100 tablet Jars (carton code E10764 - 12 jars)

CERTIFICATIONS:

MFC® TABS BLUE

Alkaline tablets designed to clean and control milk stone in automatic machine milk lines and frothers.

RECOMMENDED FOR:

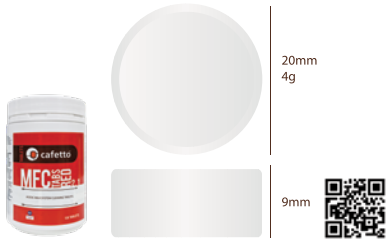

Range of fully automatic coffee machines

AVAILABLE IN:

62 tablet Jars (carton code E10297 - 12 jars)

CERTIFICATIONS:

MFC® TABS RED 2.1

Acidic tablets designed to clean and control milk stone in automatic machine milk lines and frothers.

RECOMMENDED FOR:

Range of fully automatic coffee machines

AVAILABLE IN:

100 tablet Jars (carton code E10764 - 12 jars)

CERTIFICATIONS:

MFC® TABS RED 4.0

MFC® Tabs Red 4.0 is formulated to clean automatic coffee machine milk lines and frothers.

RECOMMENDED FOR:

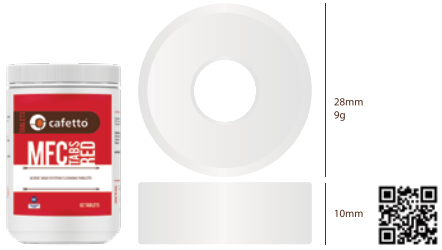

Range of fully automatic coffee machines

AVAILABLE IN:

100 tablet Jars (carton code E18643 - 12 jars)

CERTIFICATIONS:

MFC® TABS RED

Cleaning tablets suitable for cleaning milk lines, frothers and parts of automatic espresso machines.

RECOMMENDED FOR:

Range of fully automatic coffee machines

AVAILABLE IN:

62 tablet Jars (carton code E10298 - 12 jars)

CERTIFICATIONS:

MILK CLEANING TABLETS & POWDERS

T90 TABLETS

Acidic tablets designed to clean and descale milk lines, frothers, and parts of automatic machines.

RECOMMENDED FOR:

Thermoplan

AVAILABLE IN:

62 tablet Jars (carton code E28850 - 12 jars)

CERTIFICATIONS:

MFC® POWDER ECO

Alkaline milk cleaner that removes milk fat, scale build up in automatic milk frothers, and leaves no odours.

RECOMMENDED FOR:

Range of fully automatic and traditional coffee machines

AVAILABLE IN:

500g Jars (carton code E28401 – 12)
12 x 10g Sachets (carton code E29060 – 12 boxes)

CERTIFICATIONS:

WHICH ONE DO I NEED?

There are many factors to consider when choosing a suitable milk cleaner for your machine. It is important to effectively clean all milk components of a machine to avoid any blockages, prevent breakdowns, and remove odour and bacteria.

QUICK MILK CLEANER REFERENCE GUIDE

PRODUCT NAME	DESCALES	SANITISES	ALKALINE	ACIDIC	CERTIFIED	ORGANIC

MFC® Tabs Red 2.1						
MFC® Tabs Red 4.0				✓	NSF	

Note: When using acidic cleaners, the milk lines must be flushed and purged of milk prior to the cleaning process. If this cannot be done (in the case of recirculating machines), use an alkaline cleaner.

DESCALER POWDER & LIQUIDS

A good espresso will have a good crema. Crema is the even layer of fine, golden foam that rests on the top of an espresso shot. It is an important part of espresso flavour and texture. A build-up of scale in a coffee machine will reduce the quality of espresso flavour and crema texture. Scale also increases the amount of energy required to heat the water in a machine and can cause flaky particles to appear in your espresso.

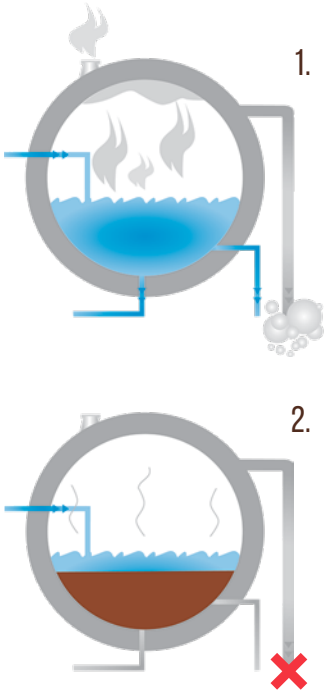

Cafetto® has a comprehensive range of high performance and eco-friendly descalers to suit both service technicians and home users.

DESCALER POWDERS

WHAT IS SCALE?

Scale can also be known as lime scale, calcium, or lime. It occurs when a build-up of mineral deposits in water form a noticeable white crust on the heating element. In many areas, water quality is a significant problem affecting the efficient operation of an espresso machine. Given that water constitutes 98% of an espresso it is not surprising that the water quality issue must be addressed. Water quality relates to these three factors - particulate matter like sediment, chemicals such as chlorine, and naturally occurring elements.

WHY DESCALE?

Scale build-up causes equipment downtime leading to increased machine service frequency, more part replacements and a shortened machine lifespan. Scale build-up also reduces the quality of espresso flavour.

Scale free boiler:

- Pressure able to build-up
- Steam wand works effectively
- Hot water is able to drain

Scaled up boiler:

- Lack of pressure
- Steam wand not working
- Unable to drain
- Taints taste
- Service call required

RENEW

A safe and effective eco-friendly powder descaler for removing hard water scale from espresso machine boilers, coffee and milk delivery lines.

RECOMMENDED FOR:

Removing hard water scale from espresso machine boilers, coffee and milk delivery lines, domestic coffee machines and kettles.

AVAILABLE IN:

6 x 25g Sachet Pack (carton code E27033 – 12 Packs)
2kg Pail (carton code E11996 – 6 Pails)
100 x 25g Sachet Pack (carton code E12331 – 1 carton)

CERTIFICATIONS:

NSF Nonfood Compounds Program Listed (A3) (164618) · Certified Allowed Input ACO CERT. NO. 10200 · KOSHER PAREVE

SPECTRA DESCALER

An eco-friendly powder descaler which visually indicates whether a descaling cycle has been successful using pH-sensitive dye compounds.

Orange indicates an effective descaling cycle, and blue indicates that another descaling cycle is required.

RECOMMENDED FOR:

Lime scale and calcium build up from espresso machine water tanks, boilers and coffee brewers.

AVAILABLE IN:

6 x 25g Sachets per box (carton code E11797 - 12 boxes)

CERTIFICATIONS:

NSF Nonfood Compounds Program Listed (A3) (159975)

LOD GREEN

Designed to remove scale build up from espresso machine water tanks, boilers and coffee brewers, LOD Green can also be used in kettles, urns and Bain Maries. Contains a synergistic blend of 4 nature derived acids that provide excellent scale removal with frequent use. Safer for the environment, safer for you.

RECOMMENDED FOR:

Removing hard water scale from espresso machine boilers, coffee and milk delivery lines.

AVAILABLE IN:

1L Bottles with dispensing chamber
(carton code E25482 - 6 bottles)

5L Bottles (carton code E26200 - 2 bottles)

CERTIFICATIONS:

NSF Nonfood Compounds Program Listed (A3) (145458)

Certified Allowed Input ACO CERT. NO. 10200

SICHMA

ORGANIC DESCALER

Perfectly suited to domestic or small office machines. Organic Descaler is a safe and effective solution for removing hard water scale from thermoblock espresso machine lines, capsule machines and boilers. This product can also be used to descale kettles.

RECOMMENDED FOR:

Descaling domestic or small office coffee machines and kettles.

AVAILABLE IN:

250ml Bottles (carton code E27434 - 12 bottles)

CERTIFICATIONS:

Certified Allowed Input ACO CERT. NO. 10200

SICHMA

KOSHER PAREVE

*Do not use in boiler machines

WHICH ONE DO I NEED?

BREWER & EQUIPMENT CLEANERS

Cafetto's range of brewer and equipment cleaners can be used to clean filter coffee brew baskets, servers, air pots, coffee pots, teapots and blenders.

They provide a superior clean and sanitation for the removal of coffee and tea stains, oils and tannins that will all affect the quality of a beverage.

BREWER CLEANER

BREW CLEAN

Clean filter coffee brew baskets, servers, air pots and coffee pots with Brew Clean, a powder designed to remove coffee oils and coffee stains, providing a superior clean.

RECOMMENDED FOR*:

Bunn | Marco | Fetco | Moccamaster | Bonavita

AVAILABLE IN:

500g Jars (carton code E29389 – 12 Jars)
12 x 10g Sachets (carton code E27038 – 12 boxes)
500 x 10g Sachets (carton code E27041 – 12 boxes)

CERTIFICATIONS:

NSF Protocol P156 Commercial Coffee Equipment Cleaners – Health and Performance

Certified Allowed Input ACO CERT. NO. 10200

TEA CLEAN

Remove oils, tea tannin and stains from porcelain, ceramic and glass tea makers, tea pots and tea cups.

Organic, phosphate free and biodegradable, with regular use, helps to control the build-up of lime scale. Tea Clean is quick and easy to use and will help you keep your tea makers looking great.

RECOMMENDED FOR:

Cleaning tea makers, tea pots and tea cups.

AVAILABLE IN:

12 x 10g Sachets per box (carton code E10290 - 12 boxes)

CERTIFICATIONS:

Certified Allowed Input ACO CERT. NO. 10200

CHILL

Clean and remove hard water scale from cold coffee systems, soft serve, gelato, blenders and slushie machines with our powder formulated to clean, sanitise and remove water scale.

Contains high levels of sequestrants to soften water and control scale.

RECOMMENDED FOR:

Ice machine, soft serve machine, Gelato machine, Slush machine, Beverage dispenser, Blender and Juicer.

AVAILABLE IN:

500g Jars (carton code E11843 - 12 jars)

INVERSO

Return shine to milk jugs, crockery and cutlery.

This unique formula of enzymes is versatile removing fat, oil, and grime build up from stainless steel surfaces and accessories, leaving a shiny finish without the scrubbing.

RECOMMENDED FOR:

Milk jugs | Crockery | Cutlery | Brewers
Filters | Stainless steel sinks and bench-tops

AVAILABLE IN:

3 x 50g Sachets per box (carton code E11935 - 12 boxes)

750g Jars (carton code E29916 - 12 jars)

GRINDER CLEANERS

Achieve greater consistency in grinder performance and lengthen the lifetime of the grinder burrs using Cafetto Grinder Cleaners.

Regular Cleaning with Grinder Clean will deliver; higher dosing consistency, consistent temperatures, improves the life span of equipment and removes old, oily, stale coffee residues blocking the grinder spout, therefore improving flavour.

GRINDER CLEANERS

EQUIPMENT LONGEVITY

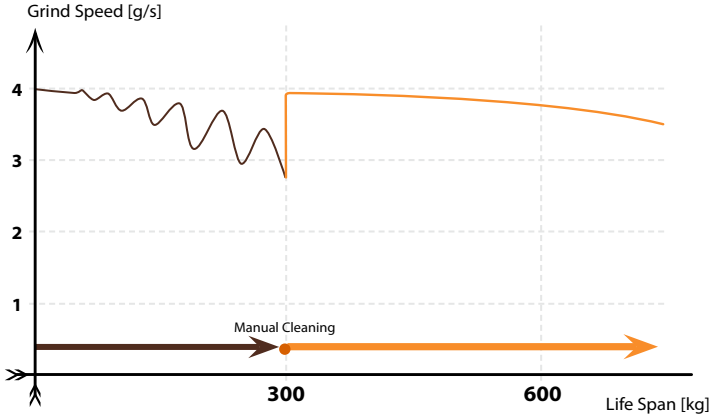

Cleaning the internal components of a coffee grinder are often overlooked or deemed unnecessary. However, cleaning the internals will remove build up of stale coffee residue, odours and reduce blockages between burrs and chutes. Cleaning will also improve grinder performance and extend the working life of its burrs.

GRINDING WITHOUT REGULAR CLEANER

- Loss of grind speed
- Loss of dosing consistency
- High temperature
- Dried milk deposits & Odour

GRINDING WITH REGULAR CLEANING

- High dosing consistency
- Constant temperature
- Slow decrease of grind speed (life time)

Unclean Grinder Burrs

After 40g Grinder Clean and light brush

GRINDER CLEAN

Completely food safe, 100% natural and gluten free, Grinder Clean cleans grinder burrs and casings as well as removing flavoured coffee odours.

RECOMMENDED FOR:

Range of coffee grinders

AVAILABLE IN:

45g Sachet (carton code E10869 – 3 x 45g x 12 Packs)
450g Jars (carton code E29760 – 12 Jars)

CERTIFICATIONS:

Certified Allowed Input ACO CERT. NO. 10200 · SICHEM · KOSHER PAREVE

Based on the average consumption of coffee in a cafe, we recommend cleaning your grinder twice a week.

GC2 GRINDER CLEANER

Cafetto® GC2 is a natural seed-based proprietary formula that does not contain any binders or chemicals during processing. Not Gluten Free.

RECOMMENDED FOR:

Range of coffee grinders

AVAILABLE IN:

GC2 Sachet (carton code E12939 – 3 x 45g x 12 Boxes)
GC2 Jar (carton code E11929 – 450g x 12 Jars)

CERTIFICATIONS:

Certified Allowed Input ACO CERT. NO. 10200

CAPSULE MACHINE CLEANERS

Eco Capsule Clean is a biodegradable Nespresso-compatible capsule containing Cafetto's cleaning powder EVO – the world's first espresso machine cleaning powder that is certified as an allowed input for Organic Systems.

Now customers can clean their Capsule machines with an economically viable, environmentally sound and effective product.

ECO CAPSULE CLEAN

Thoroughly cleans the brewing chamber and delivery spout in capsule coffee machines.

Eco Capsule Clean is a biodegradable compatible capsule containing certified organic cleaning powder. Eco Capsule Clean is the world's first espresso machine cleaning powder that is certified with the ACO.

- Free from phosphates and GMO ingredients
- 100% biodegradable capsule and recyclable foil
- Removes build-up of old coffee oils for better, fresher tasting coffee
- Completely and rapidly soluble
- Free-rinsing formula leaves no trace of odour
- Reduces risk of machine break-down that can occur as a result of blockages

Before – Dirty, tainted water

After – Clean, fresh water

- Safe for all machine parts
- Use between different beverages to stop cross-contamination of flavours

RECOMMENDED FOR*:

Nespresso compatible capsules machines

AVAILABLE IN:

6 x 2.5g Capsules per box [Not available in all regions] (carton code E13235 - 20 boxes)

CERTIFICATIONS:

Certified Allowed Input ACO CERT. NO. 10200

GENERAL CLEANING & ACCESSORIES

Maintaining completely clean equipment requires premium cleaning accessories.

Cafetto® offers a range of accessories to support a clean and healthy machine with a focus on simplifying the cleaning process. This includes multi-coloured microfibre cloths and specifically designed brushes for ease of cleaning all machine parts.

EQUIPMENT CLEANING WIPES

Maintain clean coffee machine equipment and work areas with the help of Cafetto® Barista Wipes.

Applications:

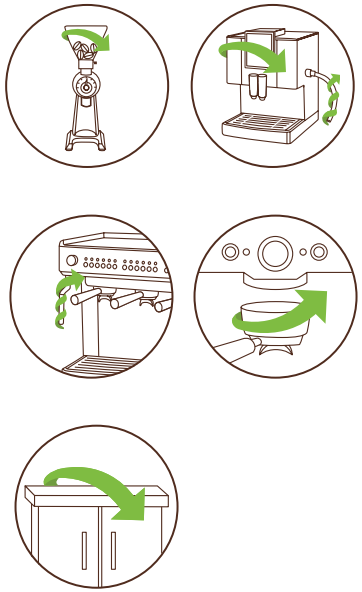

- Counter
- Hopper
- Steam wand

RECOMMENDED FOR:

Using wipes as part of your everyday cleaning process will assist with preventing cross-contamination.

AVAILABLE IN:

Cafetto® Barista Wipes (carton code E10149 – 100 Wipes)

BLIND FILTER

An essential component for back flushing group heads.

AVAILABLE IN:

53mm (carton code E13792 - 10 filters)

58mm (carton code E23363 - 10 filters)

HAYNES® LUBRI-FILM PLUS

Haynes® Lubri-Film Plus is a heavy duty food grade lubricant with extended performance and low friction properties. The lubricant minimises downtime, extends the life of moving parts and will not dry or gum on equipment.

AVAILABLE IN:

113g (carton code E28262 - 12 tubes)

CERTIFICATIONS:

NSF Nonfood Compounds Program Listed H1 Registration #113276

CAFETTO® BARISTA CLOTH SET

Cloth Set includes:

- 1 x Brown Barista Clip Cloth 30x60cm
- 1 x Green Cleaning Cloth 30x30cm
- 2 x Blue Cleaning Cloth 20x20cm

AVAILABLE IN:

Cloth Set: 1 x Brown, 1 x Green, 2 x Blue
(carton code E23960 - 20 sets)

CAFETTO® BARISTA CLIP CLOTH

Never lose your cloth again! Perfect for the busy barista, this premium microfibre Barista Clip Cloth has a nifty clip to secure the cloth to your belt loop for easy access.

Cloth size: 30x60cm

AVAILABLE IN:

Brown Clip Cloth 30x60cm
(carton code E23987 - 50 cloths)

CAFETTO® GREEN CLEANING CLOTH

A multi-purpose cloth for cleaning benches and wiping down the machine. Cloth size: 30x30cm

AVAILABLE IN:

Green Cleaning Cloth 30x30cm
(carton code E23976 - 50 cloths)

CAFETTO® BLUE STEAM WAND CLOTH

A small cloth that fits the palm of your hand, the perfect size for cleaning the steam wand, keeping dairy away from other parts of the machine. Cloth size: 20x20cm

AVAILABLE IN:

Blue Steam Wand Cloth 20x20cm (carton code E23969 - 50 cloths)

SWIVEL HEAD CLEANING BRUSH

Maintain your group heads and shower screens with this ergonomic, eco-friendly swivel action cleaning brush. Designed to assist in getting into every nook and cranny. The brush has replaceable heads to reduce landfill.

AVAILABLE IN:

Black with Green Brush Head (carton code E24134 - 25 brushes)
Replacement Brush Heads: 2 Pack (carton code E25107- 10 sets)

HEAD CLEANING BRUSH

Maintain your group heads and shower screens with the economic Head Cleaning Brush. Designed to remove coffee grounds from the group head, shower screen spout and group seal.

AVAILABLE IN:

Black (carton code E28732 - 50 brushes)

MILK FROTHER BRUSH SET

Clean a broad range of milk frothers with 5 different size brushes and a steam tip cleaning wand.

AVAILABLE IN:

Wire Ring Set (carton code E29048 - 20 sets)

STEAM TIP BRUSH SET

Effectively clean steam wand tips, small ports & jets with our set of five fine brushes. The wire ring set design ensures that you have the full range at your fingertips. Includes sizes: 1.0mm, 1.3mm, 2.0mm, 3.0mm and 5.8mm diameter.

AVAILABLE IN:

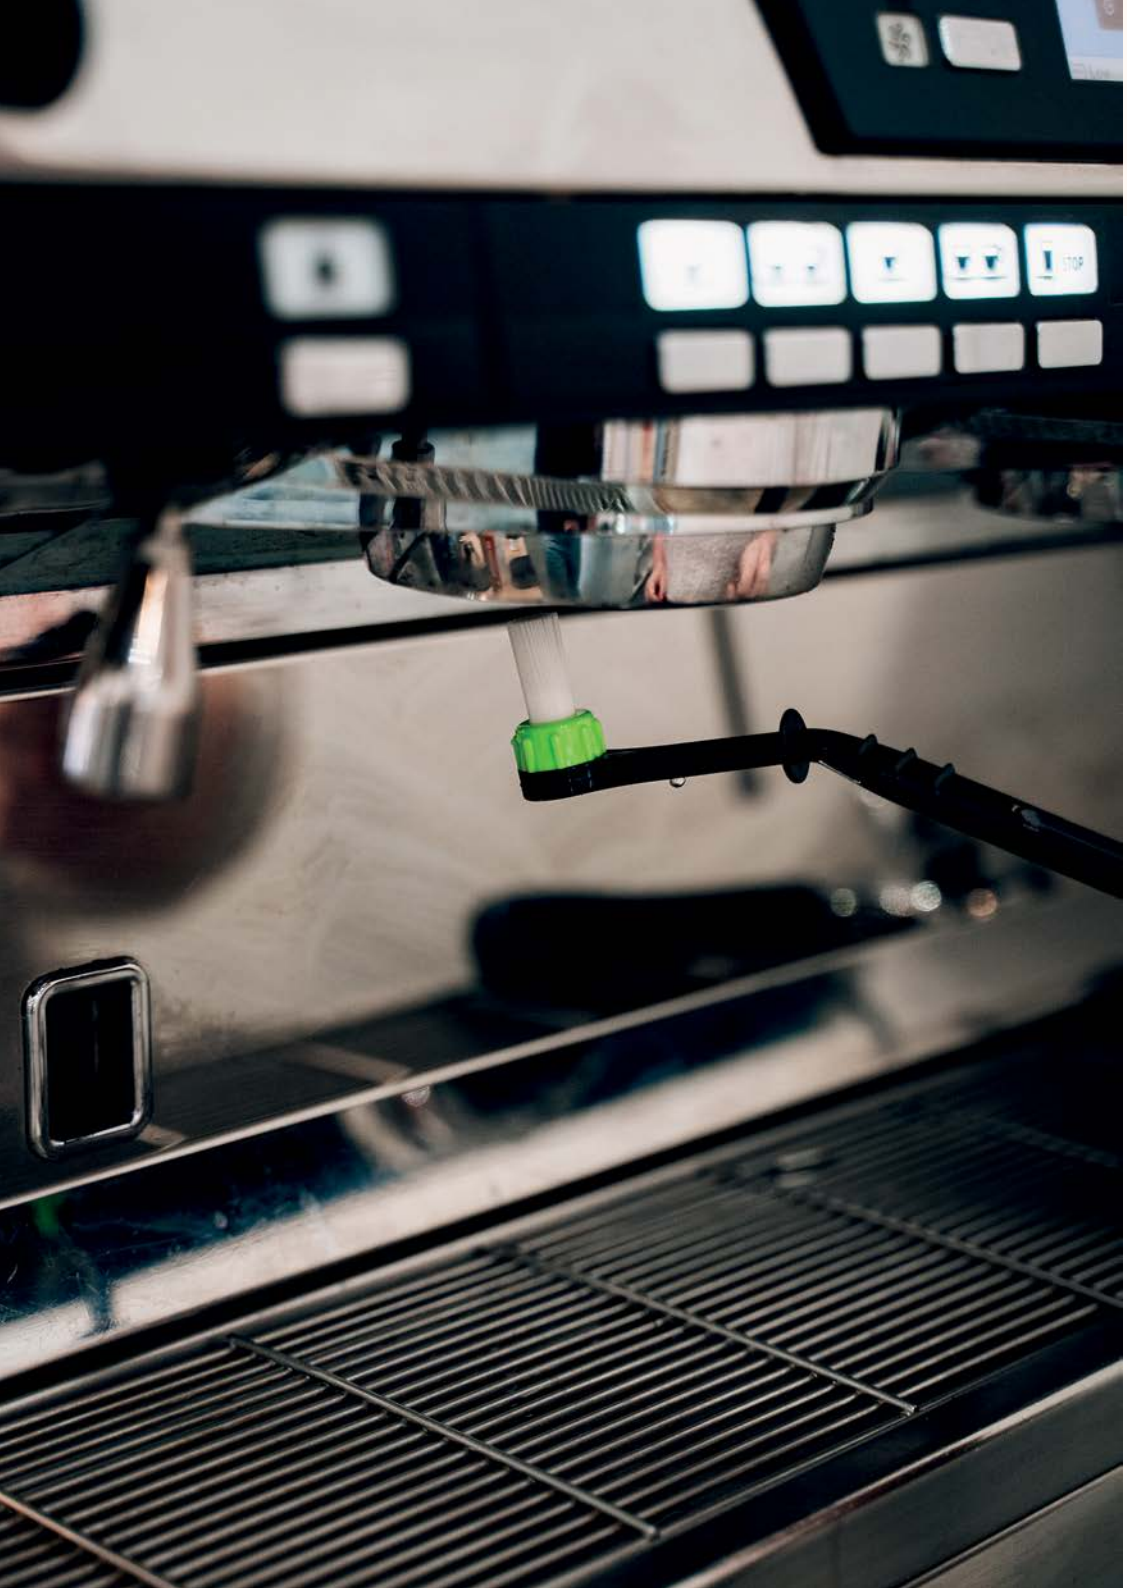

Wire Ring Set: 1.0mm, 1.3mm, 2.0mm, 3.0mm, 5.8mm diameter (carton code E29843 - 10 sets)

WHICH ONE DO I NEED?

There are many factors to consider when choosing accessories for your machine. See the quick guide to help decide the best tool for you.
